The stock market is in a tug-of-war between the Federal Reserve and the Treasury. The Fed is trying to keep the market from rising too fast, while the Treasury is trying to keep it from falling too far. The result is a volatile market with big swings in price. The Fed's actions are based on the need to control inflation, while the Treasury's actions are based on the need to maintain a strong dollar. The market is likely to continue to be volatile for some time.

**THE QUEEN OF
HAIR RESTORERS!!**

This new preparation is QUEEN, not only in name, but in purpose, to give you the genuine appearance and texture of the hair if faithfully applied.

IT IS NO HAIR DYE!

It acts directly upon the roots of the hair, changing the color to its original hue, and restores the hair to its natural condition, and falling out after hair, change the color and texture of the hair, and the hair will grow again.
